🌟 **30 Complete Large Project Ideas

---

1. ERP System (Enterprise Resource Planning)

Pages:

- HR, Payroll, Inventory
- Finance Dashboard
- Vendor & Purchase
- CRM Management

Logic:

Salary rules, tax engines, stock movement, approval workflow.

---

2. Hospital Management System

Pages:

- Patient Records
- Appointments
- Pharmacy
- Billing

Logic:

Insurance claim logic, prescription validation, medicine stock auto-update.

---

3. Multi-Vendor E-Commerce Platform

Pages:

- Product Catalog

- Cart/Checkout
- Vendor Portal
- Order Tracking

Logic:

Dynamic pricing, cart rules, commission calculation, logistics flow.

---

4. Loan Management System

Pages:

- Loan Application Form
- EMI Calculator
- KYC Module
- Admin Approval

Logic:

Interest formulas, credit scoring, EMI schedules, risk analysis.

---

5. Learning Management System (LMS)

Pages:

- Courses
- Quizzes
- Assignments
- Student/Teacher Portals

Logic:

Grade calculation, timeline tracking, ranking algorithms.

---

6. Car Rental & Fleet Management System

Pages:

- Booking Calendar
- Vehicle List
- Driver Assignments
- Payment Page

Logic:

Dynamic pricing, availability conflict checks, route/kms billing.

---

7. Warehouse & Inventory System

Pages:

- Stock In/Out
- Purchase Orders
- Barcode Scanner UI
- Supplier Management

Logic:

FIFO/LIFO logic, auto reorder, demand forecasting algorithm.

---

8. Food Delivery Marketplace (Uber Eats Clone)

Pages:

- Restaurant Menus
- Order Tracking Map
- Delivery Boy App
- Payment Gateway

Logic:

Order routing, surge pricing, delivery ETA calculation.

---

9. Real Estate Property Management

Pages:

- Property Listings
- Tenant Portal
- Rent Invoices
- Maintenance Requests

Logic:

Monthly rent cycle, late fees, auto-renewal of leases.

---

10. B2B Order Management System

Pages:

- Bulk Orders
- Quotes
- Vendor Catalog
- Invoice Management

Logic:

Approval workflow, pricing tiers, purchase workflow engine.

---

11. Insurance Policy & Claims System

Pages:

- Policy Creation

- Claims Submission
- Risk Assessment
- Agent Dashboard

Logic:

Premium rules, fraud detection, claim approval workflow.

---

12. Banking Microservices Platform

Pages:

- Account Overview
- Fund Transfer
- Transactions
- KYC Portal

Logic:

Transaction validation, audit logs, daily closing logic.

---

13. Hotel Booking & Management

Pages:

- Room Availability Calendar
- Booking Engine
- Customer Portal
- Billing

Logic:

Overbooking detection, service charge logic, rate variations.

---

14. Manufacturing Process Management (MES)

Pages:

- Production Lines
- Work Orders
- Quality Reports
- Material Tracking

Logic:

Workflow engine, BOM (Bill of Materials) verification, KPI calculations.

---

15. Social Media Platform

Pages:

- Feed
- Messaging
- Profile
- Notifications

Logic:

Feed ranking algorithm, privacy rules, spam detection.

---

16. HR & Talent Management System

Pages:

- Recruitment
- Onboarding
- Performance Reviews
- Employee Dashboard

Logic:

Automated scoring, review cycle automation, leave eligibility logic.

---

17. Subscription & Billing SaaS (Stripe-like)

Pages:

- Plans
- Invoices
- Payments
- Usage Metrics

Logic:

Prorated billing, metered usage billing, payment retry logic.

---

18. Logistics & Supply Chain System

Pages:

- Orders
- Shipment Tracking
- Route Planner
- Driver App

Logic:

Route optimization, SLA monitoring, logistics cost calculation.

---

19. Online Examination & Certification Portal

Pages:

- Exam List

- Exam Player (timer)
- Results
- Certificate Generator

Logic:

Random question generation, scoring engine, cheating detection.

---

20. Customer Support Ticketing System

Pages:

- Ticket List
- Agent Dashboard
- Chat
- SLA Monitor

Logic:

Auto ticket routing, priority escalation, SLA timers.

---

21. Smart City Utility Management System

Pages:

- Utility Dashboard
- Billing Module
- Citizen Complaints
- Outage Management

Logic:

Consumption slabs, outage detection, workflow for complaints.

---

22. Multi-Level Marketing (MLM) System

Pages:

- Genealogy Tree
- Distributor Dashboard
- Sales Entry
- Payouts

Logic:

Multi-level commission calculation, target rewards, structure updates.

---

23. University Automation System

Pages:

- Student Portal
- Faculty Portal
- Course Registration
- Exam Scheduling

Logic:

CGPA calculation, timetable generator, hall allocation rules.

---

24. Construction Project Management System

Pages:

- Project Dashboard
- Material Tracking
- Labor Management
- Gantt Chart Scheduler

Logic:

Resource allocation, dependency logic, cost-overrun alerts.

---

25. Digital Banking & Personal Finance App

Pages:

- Expense Dashboard
- Budget Planner
- Goals
- Categories

Logic:

Auto categorization, saving calculations, monthly budget rules.

---

26. Tourism & Booking Portal

Pages:

- Destination Search
- Packages
- Booking Engine
- Vendor Backend

Logic:

Seasonal pricing, availability rules, recommendation engine.

---

27. Retail POS System (Multi-branch)

Pages:

- POS Billing

- Discounts & Offers
- Inventory Transfers
- Loyalty Program

Logic:

Offer engine, loyalty points, real-time stock syncing.

---

28. Agriculture Marketplace & Smart Farming App

Pages:

- Marketplace
- Weather Dashboard
- Crop Health
- Farmer/Buyer Portal

Logic:

Price predictions, soil suggestions, irrigation automation.

---

29. Event Management & Ticketing Platform

Pages:

- Event Listing
- Ticket Booking
- Seating Layout
- Organizer Dashboard

Logic:

Seat locking, refund rules, event capacity & compliance logic.

---

30. Multi-Company Payroll & HR System (SaaS)

Pages:

- Employee Profiles
- Payroll Calculation
- Leave/Attendance
- Compliance Reports

Logic:

Tax engines, overtime/bonus rules, multi-company data isolation.
